

## Apply now to become a Science Corps Fellow!

**Have you recently completed or will soon complete your PhD in a STEM field? Interested in enhancing your career by teaching STEM for 6-months abroad and sharing your expertise where it is needed most? A Science Corps Fellowship provides STEM PhD graduates the opportunity to teach science, design curriculum, and build scientific capacity abroad.**

Science Corps is now accepting applications for paid 6-month fellowships to teach science in India or the Philippines. Fellowships are open to STEM PhD students near degree completion and up to four years post-completion.
