CLASSROOM EQUIPMENT TUTORIALS

INTERACTIVE WHITE BOARD

CLASSROOM EQUIPMENT TUTORIAL SERIES
WASHINGTON UNIVERSITY IN ST. LOUIS
CENTER FOR TEACHING & LEARNING

TABLE OF CONTENTS

- I.** Getting Started
- II.** Screenshot Feature

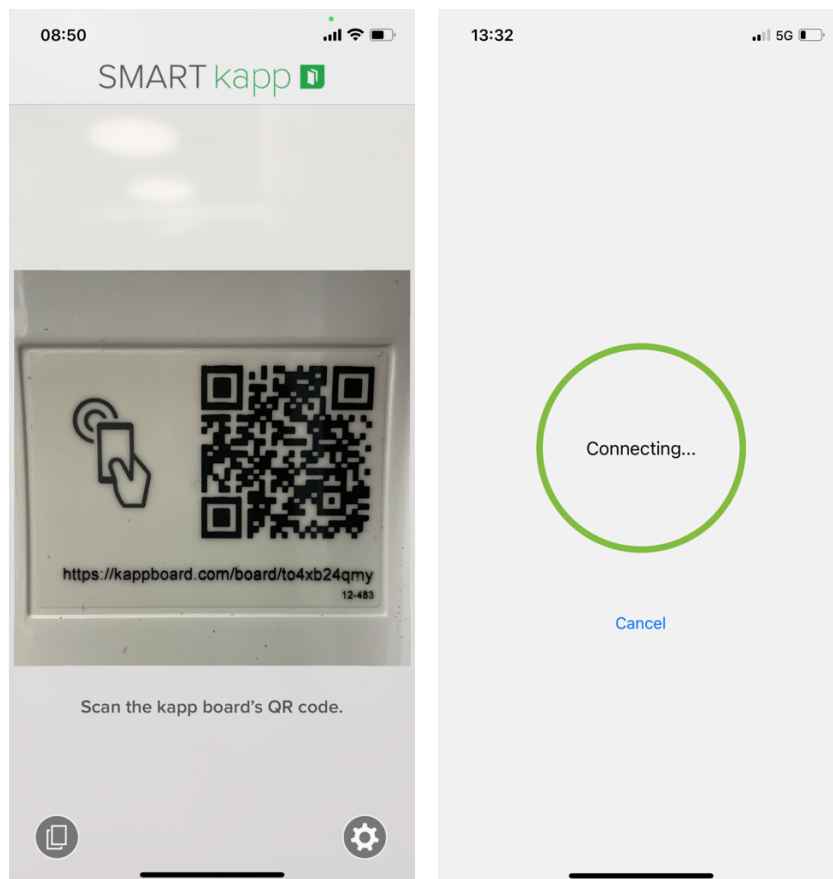

Getting Started

- Make sure the interactive white board's power cord located behind it is plugged in and then press the power button:

- Download the SMART kapp app if you haven't yet. It is available for [Apple](#) devices or [Android](#) devices.

→ Make sure that, on your device, Bluetooth is on. Then use the SMART kapp's scanner to scan the QR code on the board:

- There will be a dry eraser and a marker available; just write with it as you normally would on a regular white board:

- Once you're connected to the board, all that is written will appear on the app as well:

Screenshot Feature

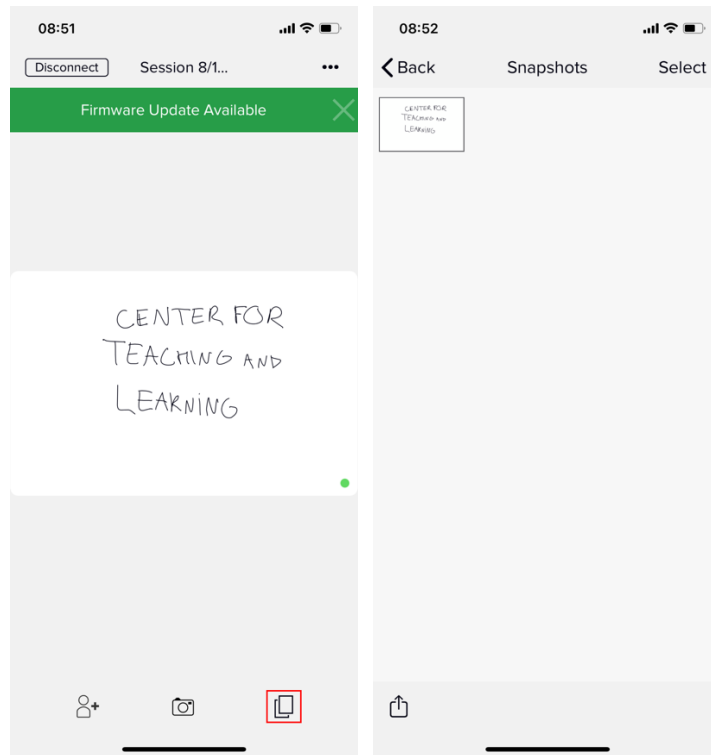

- You can then take a screenshot of the screen either through the app by clicking on the camera icon or through the board by clicking on the camera button:

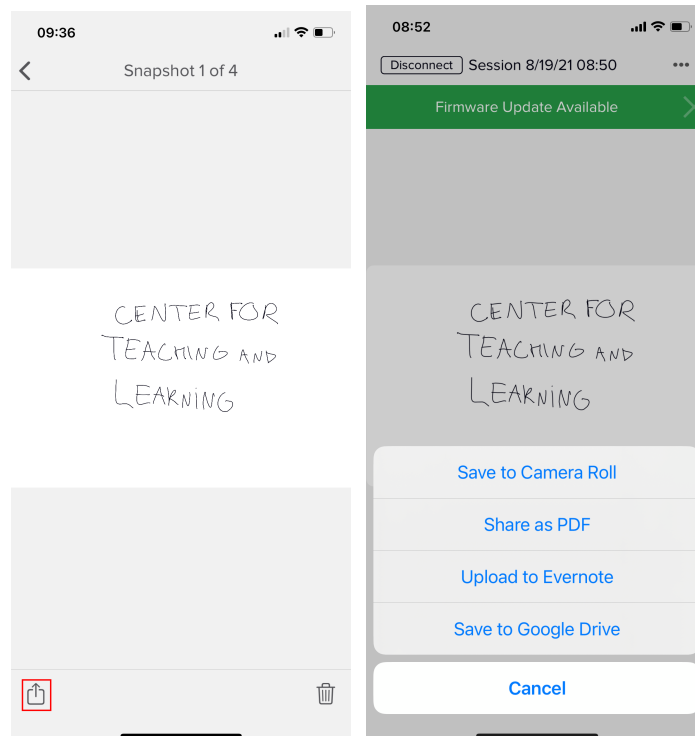

or

→ You can access the screenshots folder by clicking on the screenshots icon:

→ You can save the screenshots somewhere other than the app by clicking on the desired picture and then selecting the share option:

→ You can access all your class sessions' screenshots by clicking on the screenshot icon from the main page:
