

Academic Partnerships

At the Center for Career Engagement (CCE), our vision is to empower a career ecosystem where students maximize their potential for lifelong career success. We recognize the critical role of partnership as we work to serve ALL students. Whether you're curious to see how career readiness is being incorporated into courses, looking for ideas you can implement yourself, or developing an entirely new career-focused assignment or activity, the Academic Partnerships team is here to help.

We offer:

- Coach-led career workshops and programs
- Support to recruit industry speakers for the classroom
- Ideas for classroom career integration
- Advising tools and resources
- A cohort initiative that supports faculty in embedding career readiness into their courses
- And more!

Learn about how to integrate career into the classroom on the reverse page.

RESOURCES

Meet the CCE

Invite a member of the CCE team to briefly introduce your students to the WashU career engagement process and the support available at each phase of the journey.

Custom Career Programs

Request a 30 - 90 minute program diving deeper into career topics that help students:

- Envision Career Possibilities
- Prepare for Recruiting
- Search & Apply
- Articulate their Transferrable Skills

Industry Speakers

Partner with the CCE to invite a guest speaker to your course. Share your desired date, topic, and speaker qualifications, and the CCE will connect you with an alumni or employer partner.

Career Assignments

Access a digital library of career focused materials shared by faculty across WashU. You're sure to find ideas to get your students connecting their course learning to their career readiness.

Career Innovation Faculty Fellows

Apply to join a collaborative cohort of faculty colleagues and receive support to develop new course activities that support student career-readiness.

Career Partners Network

A dynamic professional development initiative that provides opportunities for faculty and staff to help students become career ready through exploration, insight, and/or skill building.
